

# ELECTRIC HAND HELD NUTRUNNER TOOLS

## X-SW Series

---

*New Series*

Non-reaction Hand held nutrunner tools

## Features

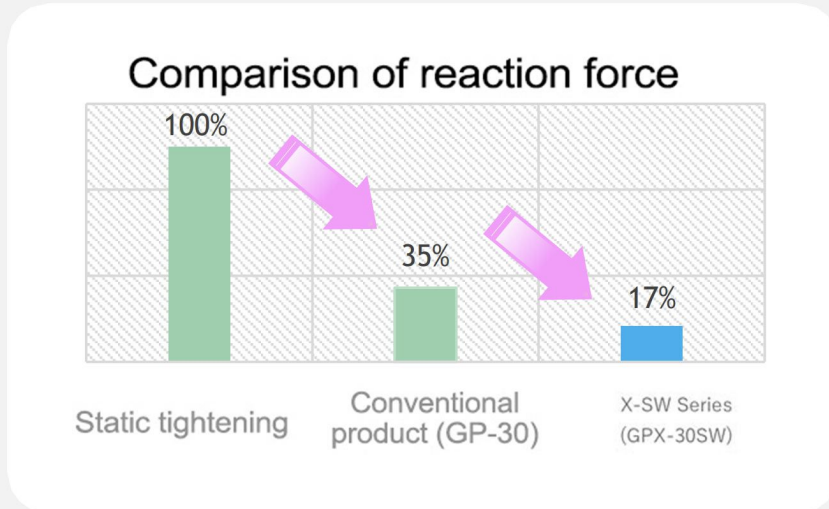

---

- New control method, swing control, reduces reaction force.
- No-load rotation speed is increased by reviewing the mechanical mechanism.
- Lower reaction force and higher speed reduce the load on the operator and improve workability.

**GIKEN**

# Features

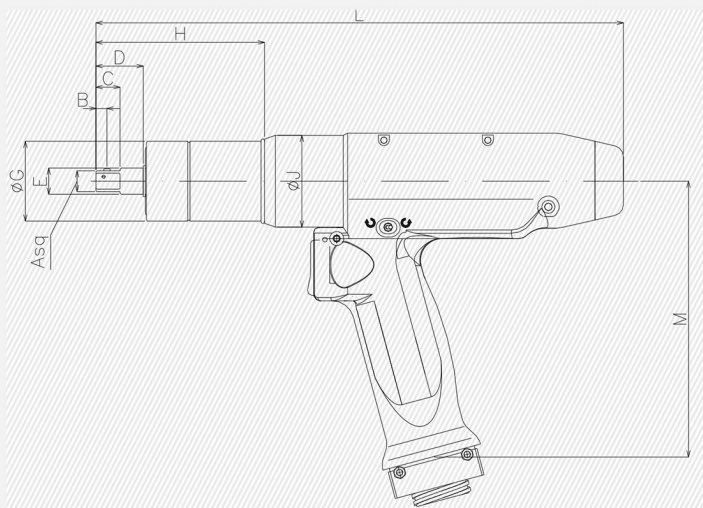

- Approximately 83% reduction compared to static tightening
- Approximately 48% reduction compared to conventional blow control

- No-load rotation speed of 4200 rpm by reviewing the mechanical mechanism
